About

I am a Software Engineer with 15 years of experience, currently leading multiple teams to build a large-scale streaming platform. I care deeply about reliability, elegant architectures, and systems that scale at cost.

I bring a strong sense of ownership to every project. Colleagues know me for clear, candid communication and for leading by example. I guide teams through change with structure, empathy, and focus, creating alignment while keeping execution crisp.

Under pressure, I stay calm and solution-oriented, balancing speed with craftsmanship to deliver excellent user experiences. I learn fast, adapt quickly to new domains, and am committed to helping people grow while delivering outcomes that matter.

Professional Experience

Apr 2022 → Present	Lead Software Engineer, Sky, Portugal Provide technical leadership across 3 teams and 25 engineers, owning architecture and <i>solutionizing</i> for both internal and platform-wide technical initiatives spanning Peacock, NOW, Sky Showtime, and Showmax. • Defined and standardized the technical intake process across the department, improving consistency and delivery predictability. • Established and rolled out monitoring guidelines and secret management standards across all systems. • Architect and review cross-team technical proposals, ensuring alignment with platform-wide quality and reliability goals.
Technologies	<i>Kotlin, Vert.x, Go, Bash, Apache Kafka, Prometheus, Grafana, Kubernetes, AWS, Vault</i>
Feb 2018 → Mar 2022	Senior Software Engineer, Sky, Portugal Led the development of reactive, low-latency microservices handling billions of requests weekly across all streaming platforms, while owning the design and delivery of shared libraries and server-side frameworks adopted across multiple teams in the department. • Designed and built reactive, scalable microservices serving billions of weekly requests across Peacock, NOW, Sky Showtime, and Showmax. • Authored and maintained internal libraries and server-side frameworks standardized across the department. • Drove architecture decisions to ensure low-latency, high-availability, and operational excellence.
Technologies	<i>Kotlin, Vert.x, Apache Kafka, MongoDB, Elasticsearch, Prometheus, Grafana, Kubernetes, AWS</i>

Jun 2015 → Jan 2018	Product Security Lead, Coriant, Inc., Portugal Led end-to-end product security, from standards and process design to hands-on guidance and reviews. • Established core product security processes, such as vuln management and OSS governance • Defined security requirements and approved features with risk-based reviews • Authored architecture/security specs and guided secure development • Drove security awareness and supported customers and internal teams Additionally, successfully mentored an MSc thesis titled "Preventing DoS Attacks in Multi-Domain Optical SDN."
Jan 2013 → Jan 2018	Lead Software Engineer, Coriant, Inc., Portugal Owned service's end-to-end delivery, from architecture to implementation and cross-team coordination of an in-house built SDN platform. • Led design, development, and overall product/software architecture. • Reviewed and implemented unit, integration, and end-to-end tests. • Supported system architects in defining product features and requirements. • Drove collaboration across teams and adjacent products.
Technologies	<i>Java SE8, Spring Boot, Apache Kafka, Apache Zookeeper, junit, Maven, git</i>
Sep 2011 → Dec 2012	Full Stack Software Developer, Maxdata Informática, Portugal Developed a major and innovative IT solution for health institutions, initially focus on an epidemiological surveillance control, the focus of my MSc thesis.
Technologies	<i>Google Web Toolkit (GWT), Java SE6, Spring, Hibernate, JavaCC, JTree.</i>

Professional Certifications

Dec/2016	Oracle Certified Associate, Java SE 8 Programmer (1Z0-808)
----------	--

Education

2010 → 2012	MSc in Computer Science - Computer Systems, Architecture and Networks, Faculty of Sciences of the University of Lisbon, Portugal.
2005 → 2010	BSc in Computer Science, Faculty of Sciences of the University of Lisbon, Portugal.

Languages

Portuguese	Native
English	Fluent
